1. Introduction

The apicomplexan parasite *Plasmodium falciparum*. *P. falciparum*

1.1 The Plasmodium Falciparum Exportome

The PEXEL Motif

PNEPs

1.2 Protein Structure Prediction

Disorder Prediction (metaPrDOS)

Coiled Coil Prediction (Coils)

Transmembrane Prediction (TMHMM)

Combined Approaches (Phyre2 and InterPro)

2. Implementation

2.1 Automating Sequence Submission

2.2 Collating output formats

2.3 Visualisation

3. Limitations and Further Work

Acknowledgments
