Contents

1. Introduction

1.1 The Plasmodium Falciparum Exportome

The PEXEL Motif
PNEPs

1.2 Protein Structure Prediction

Secondary Structure Prediction
Disorder Prediction
Coiled Coil Prediction (Coils)
Transmembrane Prediction (TMHMM)
Fold Recognition (Phyre2)
Blablabla said Nobody [**?**].

2. Implementation

2.1 Automating Sequence Submission
2.2 Collating output formats
2.3 Visualisation

3. Limitations and Further Work
